Early Retirement Incentive update

We are still meeting with the District to work out the technicalities of an incentive for Classified employees. The District was able to use PARS to create the incentive for certificated employees, but because we (Classified) have so many different work schedules, it is a much larger task to accomplish. At our last meeting, we gave the District some new information using government code and PERS accounting methods.

We will continue to work with the District to offer our eligible members an equitable incentive. You can check our website for the most current information.

Please join us in welcoming PYLUSD's newest groundskeepers, Ruben Ceballos and Luis Gonzalez. New to their positions, but not the PYLUSD family, Ruben and Luis have prior experience as permanent and substitute workers with PYLUSD. They do a fantastic job manicuring and maintaining sites, including the District Educational Center.

Congratulations, Ruben & Luis! We look forward to seeing even more District workers (and fewer contractors!!) throughout the District as we work to protect and preserve our Classified PYLUSD family.

Next Chapter Meeting:

Monday, October 11, 2010

5:15 p.m. - ESC Large Conference Room

Site reps - please be here at 4:45
